

**CLAIM AMENDMENTS**

1. - 2. (Canceled)

3. (Currently Amended) In a communications device having a speed-dial function, a method of improving hands-free operation, including the steps of:

storing a plurality of telephone numbers in the device in a list of numbers to be dialed;

manually entering an abbreviated command to sequence through the list to dial each stored number; and

automatically deleting a number from the list after a call to that number has been completed.

4. - 7. (Canceled)

8. (New) In a communications device having a speed-dial function, a method of improving hands-free operation, including the steps of:

storing a plurality of telephone numbers in the device in a list of numbers to be dialed;

entering an abbreviated command spoken by a user to sequence through the list to dial each stored number; and

automatically deleting a number from the list after a call to that number has been completed.
